

## **ChinaCache and Hutchison Global Communications Sign MOU to Form Strategic Partnership for Provision of Content Delivery Network Services in Asia**

**HONG KONG / BEIJING, 15 August, 2012** - ChinaCache International Holdings Ltd. ("ChinaCache" or the "Company") (NASDAQ: CCIH), the leading total solutions provider of internet content and application delivery services in mainland China, and Hutchison Global Communications Limited ("HGC"), the fixed-line operation of Hutchison Telecommunications Hong Kong Holdings Limited (HKex Stock Code: 215), today jointly announced that the two companies have signed a memorandum of understanding (MOU) to create a mutually beneficial collaboration and explore Asian markets for the provision of Content Delivery Network (CDN) services together. It is a collaboration between ChinaCache and HGC's international operations.

Under the MOU, ChinaCache will establish CDN and Cloud nodes at HGC's data centres with facilities, including hardware, software and cabinets, provided by HGC. The two companies intend to work closely together and support each other in developing the markets of mainland China, Hong Kong, and other regions in South East Asia to bring high-quality services and enhanced user experience to customers in these markets.

"We are very excited to partner with HGC. HGC has an extensive global footprint and a strong presence in Hong Kong, South East Asia and the Americas. We are delighted to put our expertise in CDN together with HGC's rich experience in managing world-class global network and data centers to provide quality services to more customers in Asia," commented Mr. Song Wang, founder, chairman and CEO of ChinaCache.

"The MOU has underscored ChinaCache and HGC's concerted effort to bring the best and the widest range of telecom products and services to customers. We believe that ChinaCache's CDN services will help enhance HGC's service portfolio and its capabilities to access mainland China's Internet contents in terms of volume, speed and readiness for customers in Hong Kong and overseas," said Andrew Kwok, President of International Business at HGC.

CDN is an internet-based content and applications distribution network, which seeks to enhance end user experience by accelerating and stabilising webpage views, file downloading, online transactions, video streaming, and instant messaging, among others.

### **About Hutchison Global Communications Limited**

Hutchison Global Communications Limited (HGC) owns one of the largest fibre-to-the-building telecommunications networks in Hong Kong. Since establishment in 1995, it has been fully committed to building its own 100% optical-fibre network infrastructure and introducing the most advanced facilities. Coupled with its four cross-border routes integrated with all three of mainland China's tier-one telecommunications operators and world-class international network, HGC provides a comprehensive range of fixed-line telecommunications services locally and overseas. HGC is a subsidiary of Hutchison Telecommunications Hong Kong Holdings Limited (HTHKH, Stock Code: 215). HTHKH is a leading integrated telecommunications service operator, offering mobile and fixed-line services to local and international customers.
