## Summary of HGC 100M Residential Broadband Service

### **"100M Trio Service Pack" boosts high-speed indoor and outdoor internet access**

HGC launched "100M Trio Service Pack", a 100M residential broadband service that comes with "Home Wi-Fi" and "Outdoor Wi-Fi" services, providing users with a high-speed experience be it indoor or outdoor Internet browsing, downloads and uploads of files and video streaming. Subscribe to this trio pack, customers can also walk away with a Dell™ Inspiron Mini 9 Netbook and a 3freedom USB modem prepaid pack for free.

### **A 100M Hi-speed broadband experience**

Leveraging HGC's "fibre-to-the-building" network and its edge on symmetrical upstream and downstream speed, the newly launched 100M broadband service further pampers the user with a super fast Internet browsing experience. The high bandwidth supports a wide range of online multi-media services and applications, such as high quality music and movies, online games and software downloads.

### **"Home Wi-Fi" and "Outdoor Wi-Fi" open up a wireless Internet world**

"Home Wi-Fi" service comes with a Home Wi-Fi modem that enables users to surf the Internet without the need to plug in a LAN cable with a computer. Another complementary service "Outdoor Wi-Fi" provides unlimited Wi-Fi access at over 2,000 access points in some comfortable and cosy locations like designated McDonald's, Starbucks and California Red Karaoke. Users can relax and enjoy themselves while browsing web pages, checking e-mails or simply chatting with friends online. No more standing or hand holding of a laptop at a Wi-Fi spot.

### **Free Netbook and 3freedom USB modem**

The latest Dell™ Inspiron Mini 9 Netbooks and 3freedom USB modem prepaid packs are up for grabs for "100M Trio Service Pack" subscribers! Tailor-made for mobile Internet surfing, the Netbook features advanced configurations like Intel Atom Processor (1.6MHz), an 8.9" LED display and an 8GB Solid State hard drive. Each weighs only about 1kg - easy to carry for almost everyone. Together with a 3freedom USB modem, surfing the Internet while out and about could not be easier.
