

[For Immediate Release]

HGC and GTT Expand Partnership to Elevate Networking Services in Southeast Asia

Scaling Resilient Connectivity Up to 400Gbps to Power Digital Infrastructure Across the Region

Hong Kong, 8 December 2025 – [HGC Global Communications \(HGC\)](#), a fully-fledged ICT service provider and network operator with extensive coverage, and [GTT Communications, Inc. \(GTT\)](#), a leading networking and security as a service provider for multinational organizations, announced an expanded partnership that extends GTT's global solutions deeper into multiple markets throughout Southeast Asia. By leveraging HGC's local expertise, the collaboration enables regional traffic growth and delivers greater options for networking and security solutions. This enhanced reach leverages scalable 400Gbps connectivity integrated with the GTT Envision platform.

HGC offers extensive support through its local field engineering teams, providing responsive, on-the-ground expertise for ICT and operational needs. The partnership drives cost efficiency by routing local traffic through core hubs, reducing reliance on expensive local loops.

GTT enterprise customers gain real-time management on connectivity, security, and cloud services via the seamless integration with the GTT Envision platform, supported by its global Tier 1 backbone for secure, resilient access to mission-critical applications.

Paul Lai, Senior Vice President of Global Carrier Management and Wholesale, International Business of HGC, said, "This collaboration underscores HGC's commitment to delivering exceptional connectivity solutions, leveraging our expertise in the region and our robust infrastructure. Together, we are empowering GTT to provide their customers with scalable, high-performance networking and security solutions, ensuring they can thrive in today's demanding digital landscape. This partnership is a win-win, driving innovation and delivering tangible value to businesses worldwide."

Duncan Small, Senior Vice President, Engineering Operations of GTT, said, "Partnering with HGC to expand our global platform in Southeast Asia and enabling up to 400Gbps speeds in these regions enhances choice for our joint customers who need to support traffic growth in adjacent markets and to intercontinental destinations. The GTT Envision platform makes it simple for customers to manage connectivity, networking, security and cloud tasks in real-time, all built into our global Tier 1 backbone for matchless performance and reach."

About HGC Global Communications Limited

HGC Global Communications Limited (HGC) is a leading Hong Kong and international telecom operator and ICT solution provider. The company owns an extensive network and infrastructure in Hong Kong and overseas and provides various kinds of services. HGC has 20 global offices and staff presence in 33 cities worldwide. It provides telecom infrastructure service to other operators and serves as a service provider to corporate and households. The company provides full-fledged telecom, data centre services, ICT solutions and broadband services for local, overseas, corporate, SME and mass markets. HGC owns and operates an extensive fibre-optic network, five cross-border telecom routes integrated into tier-one telecom operators in mainland China and connects with hundreds of world-class international telecom operators. The company is committed to further investing and enriching its current infrastructure and, in parallel, adding on top the latest technologies and developing its infrastructure services and solutions. In 2019, HGC Group completed the acquisition of Macroview Telecom Limited (Macroview), a leading digital technology solution and managed services provider. The addition of Macroview further accelerates HGC Group's digital transformation path and positioning as a pioneering ICT and digital services leader. HGC is a portfolio company of I Squared Capital, an independent global infrastructure investment manager focusing on energy, utilities, transport, social infrastructure, digital infrastructure, and environmental infrastructure in North America, Europe, Latin America and Asia.
